

Alumni 2002-2005

Mandy is proud to be called an Oilympian. In 2005 she took a first place in the annual competition and won cash prize of \$2500 that helped pay for her honeymoon. But Mandy had always set her sights higher then winning our service competition. During the course of her employment, she attended college at MSU Bozeman in pursuit of a nursing degree and after graduation became a pediatric nurse at St. Vincent Healthcare. Today, she and her husband have a beautiful 10-month old baby and she continues her nursing career with St. Vincent. She tells us that being a good mom is her newest and most important goal. And as she and her bouncing baby boy smile for the camera, we can see why.

“Keep your goals in mind the whole time you are working. Whatever you believe is possible”

Mandy Kaczmarek
